

NOW OFFERING

FAT LOSS FOR EVERY-BODY

EMERALD
LASER

THE NEWEST TREATMENT FOR

non-invasive fat loss

EMERALD LASER™ is the only low level laser in the world that has been given FDA market clearance for overall body circumference reduction in patients with small pockets of fat, to individuals with a BMI up to 40.

The laser works as a natural alternative for fat loss by using low level lasers to create a temporary pore in the fat cells, allowing the fatty liquids to seep out of the cell and be naturally flushed out through your lymphatic system.

amazing results
