

SANDAL SEASON IS COMING!

- ✓ **Short, 12-minute sessions**
- ✓ **All 5 toes treated at once**
- ✓ **No needles, heat or freezing**

Summer is right around the corner!

You deserve to enjoy the season without keeping your feet trapped in closed-toe footwear. With Lunula Laser, you can wear toe-bearing shoes all summer long without the fear of shame or judgment. As the first and only non-invasive laser on the market, Lunula treatments stimulate healthy nail growth to battle the effects of onychomycosis. This heatless and pain-free option is safe and effective, making it a top choice for our clients who are tired of dealing with unsightly toe fungus.

Choose a treatment plan that best suits you today!
