

**Target Onychomycosis
with the powerful**

LUNULA LASER

Treatments with Lunula Laser are:

- ✓ **Pain-free and non-invasive**
- ✓ **Quick (12 minutes!)**
- ✓ **See an 89% success rate**

Have you been struggling for too long with unsightly toenail fungus?

If you're ready for your Onychomycosis to be a thing of the past, look no further! With the touchless and painless low-level Lunula Laser, you'll experience new, clear, and healthy nail growth quickly. The heartbreak of toenail fungus will be a thing of the past with as little as (4) 12-minute treatments, and produce up to 6mm of growth in just 6 months with this FDA-backed technology.
